STRATEGIC INDO-US SYNERGY & INSTITUTIONAL REBOUND

Weekly Strategic Analysis | February 10, 2026

Capital is rotating from Western uncertainty to Eastern fiscal oases.

EXECUTIVE SUMMARY: THE STRUCTURAL REALIGNMENT

INDIA GROWTH

Nifty Rebound:
+0.70% 

FII Inflow:
+₹2,255 Cr 

US CONSOLIDATION

Indo-US Deal:
+1.5% GDP Impact 

ANALYST INSIGHT:

We are witnessing a fundamental 'Risk-On' sentiment shift anchored by long-term fiscal prudence rather than short-term speculation. The Indo-US Comprehensive Trade & Technology Initiative has re-rated the economic corridor.

GLOBAL MACRO DASHBOARD: THE HEATMAP

KEY INSIGHT:

Divergent market behaviors as Asia surges while the West consolidates.

STRATEGIC ACTION: Monitor the DXY pivot at 97.20 for global risk appetite confirmation. Europe remains rangebound (FDAX -0.05%) due to industrial lag.

AMERICAS: TACTICAL CONSOLIDATION & POLICY DRAG

RESISTANCE BARRIERS

S&P 500: Flat at 6,962.50

Nasdaq: Testing 10-day EMA (25,242.70)

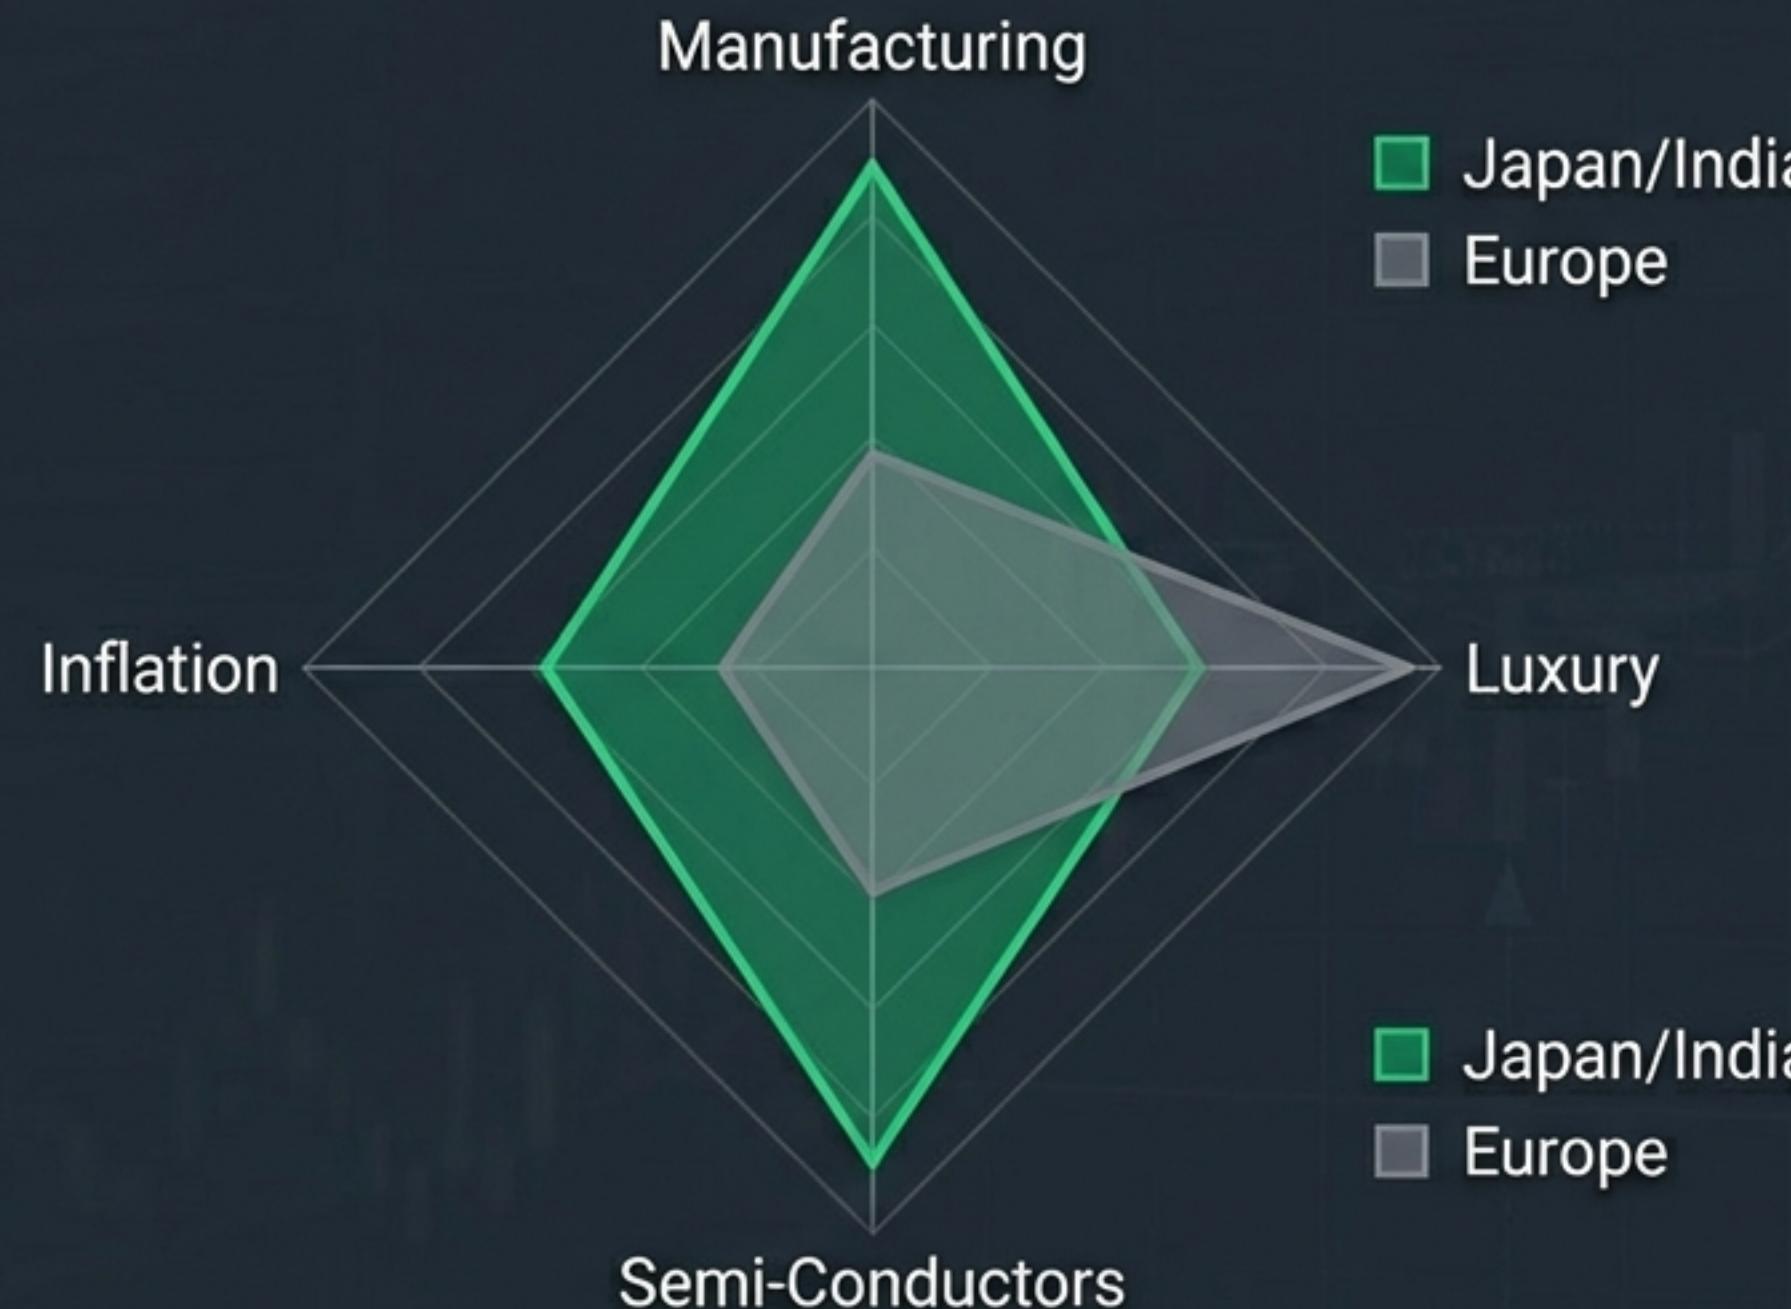

Event Risk: US Government Shutdown
("Shock of the Month")

Divergence Scale

ANALYST INSIGHT: The market is pricing in "High Terminal Rates" under the new "Warsh Fed," prioritizing labor defense over inflation targets.

EURASIA: THE NIKKEI PARABOLA & LUXURY SUPPORT

Nikkei 225: +0.85%
(Parabolic Surge)

France (FCE1): +0.59%
(Luxury Rebound)

Germany (FDAX): -0.05%
(Industrial Lag)

STRATEGIC ACTION: Long positions favored in Asian manufacturing over European industrials.

THE INDIAN SHIELD: A FISCAL OASIS

- **KEY INSIGHT:** India is insulated by domestic policy clarity.
- **POLICY:** RBI maintains 'Hawkish Pause' at 5.25%.
- **GROWTH:** The Indo-US deal adds a fundamental 1.5% GDP tailwind, specifically benefiting defense and manufacturing.

TECHNICAL STRATEGY: NIFTY 50 BREAKOUT

- **Current Level:** 25,867.30 (+0.70%)
- **Pattern:** Island Reversal confirms post-budget momentum.
- **Action:** Buy on dips near 25,200.

INSTITUTIONAL FLOWS: THE FII PIVOT

DII Cash: +₹4.15 Cr

FII Cash: +₹2,254.64 Cr

Aggressive Net Buying

FII Options: +₹4,291.57 Cr

- **KEY INSIGHT:** FIIs have turned Aggressive Net Buyers, ending defensive de-leveraging.
- **ANALYST INSIGHT:** Massive FII Index Options buying suggests positioning for high-volatility upside. This flow indicates a 'Flight to Quality' away from Western inflationary jitters.

RISK MANAGEMENT: VOLATILITY STABILIZATION

India VIX

US VIX

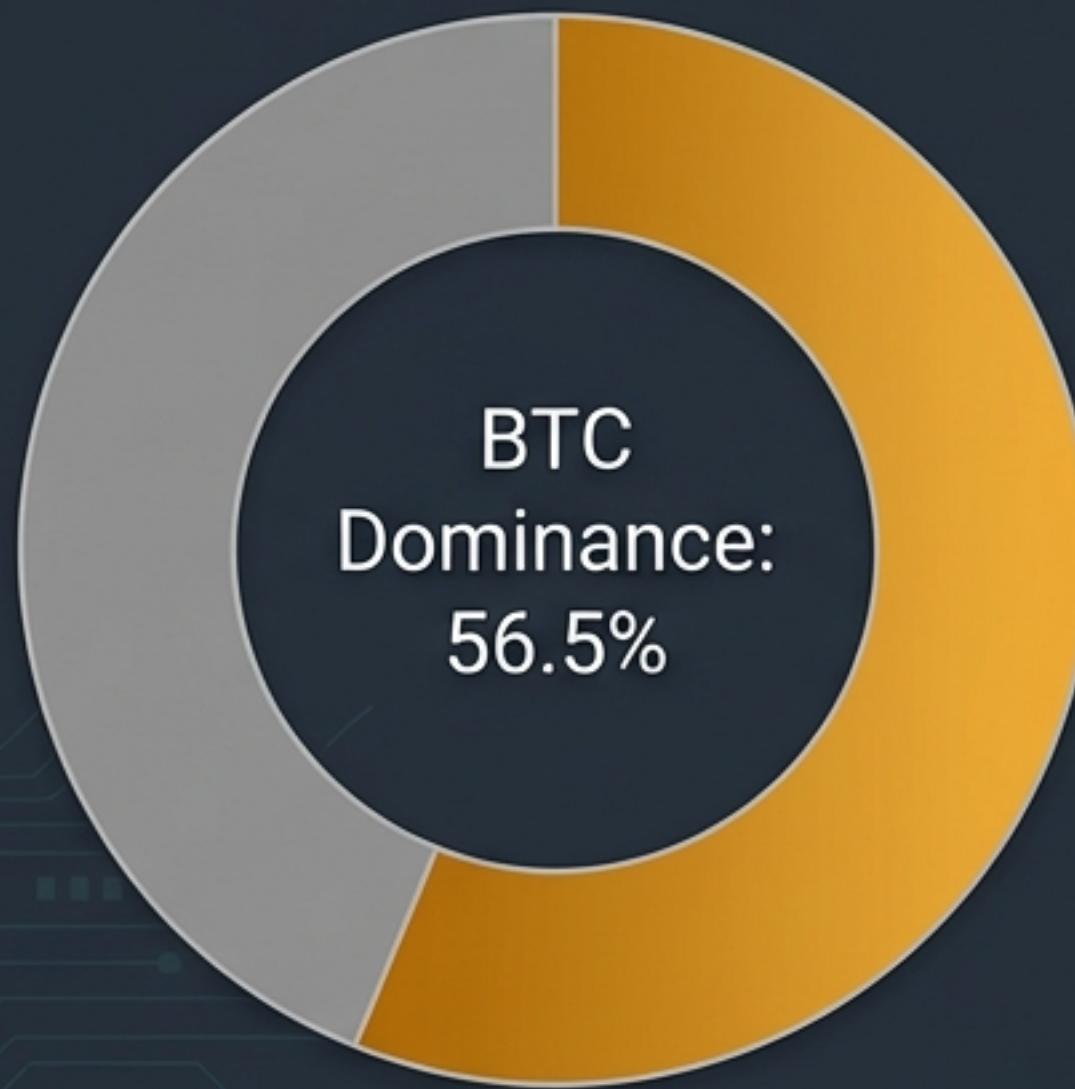

Market Mood

- **STRATEGIC ACTION:** Shift from defensive hedging to directional long positions in Indian Large Caps.
- **DATA:** Domestic pullbacks are being aggressively bought.

CRYPTO ASSETS: DEFENSIVE ACCUMULATION

- **Bitcoin (BTC):** \$69,722 (-0.54%) - Holding near ATH.
- **Ethereum (ETH):** \$2,066 (-1.77%) - Under pressure.

- **HEADWIND:** EU Commission's proposed 25% flat tax on unrealized gains.
- **ANALYST INSIGHT:** Spot ETF outflows (\$450M) suggest institutional de-risking ahead of US policy reset. 'Digital Gold' remains a corporate reserve (MicroStrategy).

COMMODITIES: SAFE HAVEN DISTRIBUTION

Gold (XAUUSD): \$5,029 (-0.56%)

Silver: \$81.24 (-2.54%)

- **KEY INSIGHT:** Commodities are undergoing 'Distribution' as capital rotates back into Equities.
- **STRATEGIC ACTION:** Avoid aggressive longs. Capital is leaving commodities for 'Growth Oases'.
- **Brent Oil:** Soft at \$68.59.

FOREX: THE DOLLAR INDEX PIVOT

- USD/INR: 90.70 (Stable/Resilient)

KEY INSIGHT: DXY is showing a 'Topping Pattern'. The Rupee shows resilience despite dollar strength.

ANALYST INSIGHT: A high-DXY environment creates a 'Liquidity Vacuum' in crypto/commodities. Wait for dollar stabilization.
